No worries. As much email traffic I see with assumption, I can't imagine how you keep up with it and then all the other section activities too.

Hi, Kelly – It looks like I didn't forward this as I intended to. Kevin Cunniff indicated that everyone copied on his message would be involved in the consultation meeting. Sorry about that!

Subject: RE: FDEP 404 Program Application Publication in Federal Register and EPA Consultation

Good afternoon, Rachael and Rosemary, I appreciate all of the efforts to coordinate EPA consultation with the Seminole Tribe of Florida, as per general CWA and NHPA, regarding the state of Florida's request on 404 assumption. Rosemary, I further appreciate you reaching out to me, directly, and for our conversation Friday morning. There have been different lines of communications among EPA, LLW, and Tribal government staff, and I am seeking to align communications for current and future coordination and consultation.

Rosemary, as I briefly detailed to you this morning, the Tribe has given direction on the preferred manner of communications and points of contact within the established Heritage and Environment Resources Office (HERO) and constituent Departments (i.e., THPO, Ah-Tah-Thi-Ki Museum, and ERMD). Please note the attached memo for your reference. As such, we have sought to proceed with directing communications between designated federal liaisons and Mr. Stacy Myers, Senior Scientist/Liaison. There is an important caveat here in that there are situations where direct liaison-to-liaison communications protocol can deviate. Mr. Jim Shore, General Counsel, has directed instances where external legal counsel should take the lead on certain coordination, particularly where an attorney has been engaged in the manner that Rachael has with the 404 assumption, as an example. I also acknowledge that there are long-standing working relationships and communications pathways at the staff level. Ultimately, the intent is not to stifle day-to-day communications, but rather to ensure that government-to-government communications, such as a formal consultation

request, proceeds as preferred by the Tribe. Therefore, please ask your team to include Stacy Myers and Rachael Santana in upcoming communications regarding this consultation.

Lastly, as we had discussed and for your convenience, please include all addressed and cc'd within this email for the upcoming government-to-government consultation invitation, which includes Mr. Shore and Mr. Andrew J. Bowers, Executive Director of Operations. The Tribe would also respectfully request that Ms. Katie Pugh be included in the meeting, please.

Thanks very much, Rosemary, on behalf of the Tribe and team here, we look forward to engaging EPA on the upcoming consultation.

-Kevin

Subject: Request for Dates for Pre-Consultation Internal Meeting on FDEP 404 Program Application

Good afternoon Paul, Kevin, and Anne,

I followed up with Mr. Laycock at EPA again today in the hopes of getting a time certain for EPA Consultation on Monday the 28th for the Florida 404 Program assumption application. I will be sending a hold for that day for everyone's calendars until I hear back from him so that we don't get booked up.

Regards,

Rachael B. Santana | Attorney
